

Instruction Assembly for the LBS1000 Manual Cold Roll Laminator

1. Fix the brackets containing rubber feet to the underside of the fold-out tables using screws and washers supplied.

2. Fix the Media Hanging Base Bracket to each side of the machine using the four self tapping screws supplied - (ensure the diagonal counter-sunk holes face inwards on the machine)

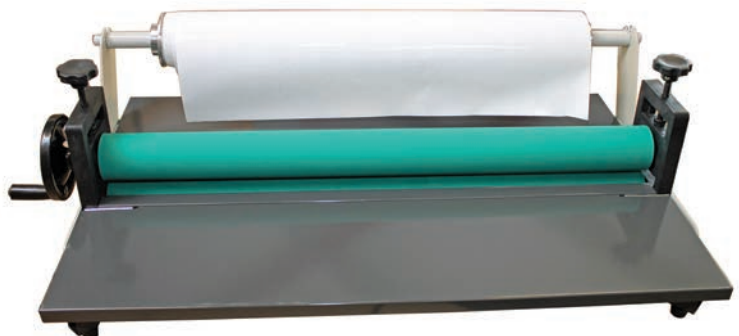

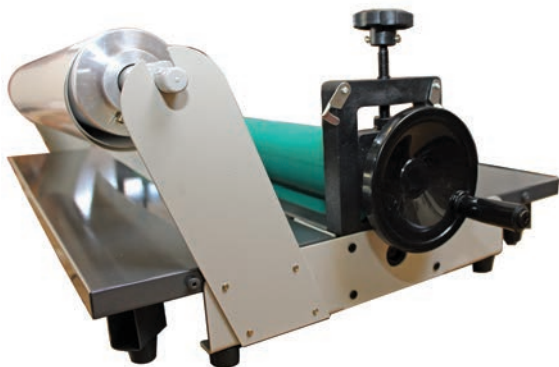

3. Fix the 'Media Hanging Bracket' to the 'Media Hanging Base' using the countersunk screws supplied.

4. With table folded-down, place the Media Hanging Rail on the machine*.

5. Finally Affix the handwheel to the machine (spindle side showing)

*Please Note: Media is not supplied with a single purchase of the machine. However Media can be ordered from www.gapsuk.com
